Select your options below. The default page range is all pages (or the first worksheet), and the default number of copies is 1.

Document type:

- Select type
- Excel
- Word
- PowerPoint
- PDF
- Other

[Today's Business Solutions](#)

Navigation buttons:   

5. Select which pages of the document you would like to print, and how many copies of the document.

Document type: Other ▾

All pages

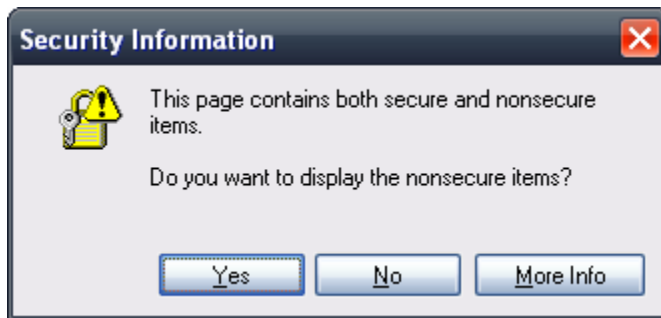

Pages: (eg, 1-6 or 3).

Number of copies

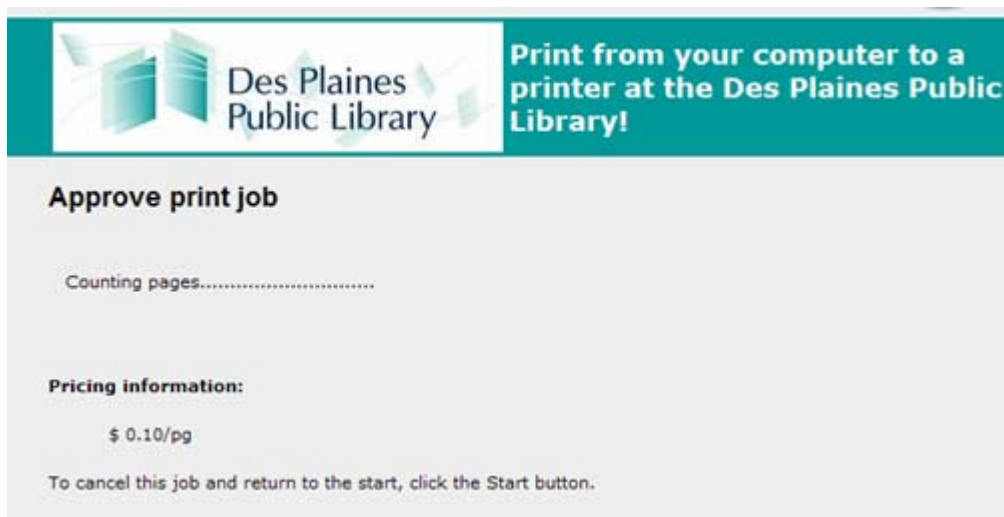

6. Press the Right Arrow to continue.

7. A Security Information window may appear. Click Yes to continue and to display nonsecure items.

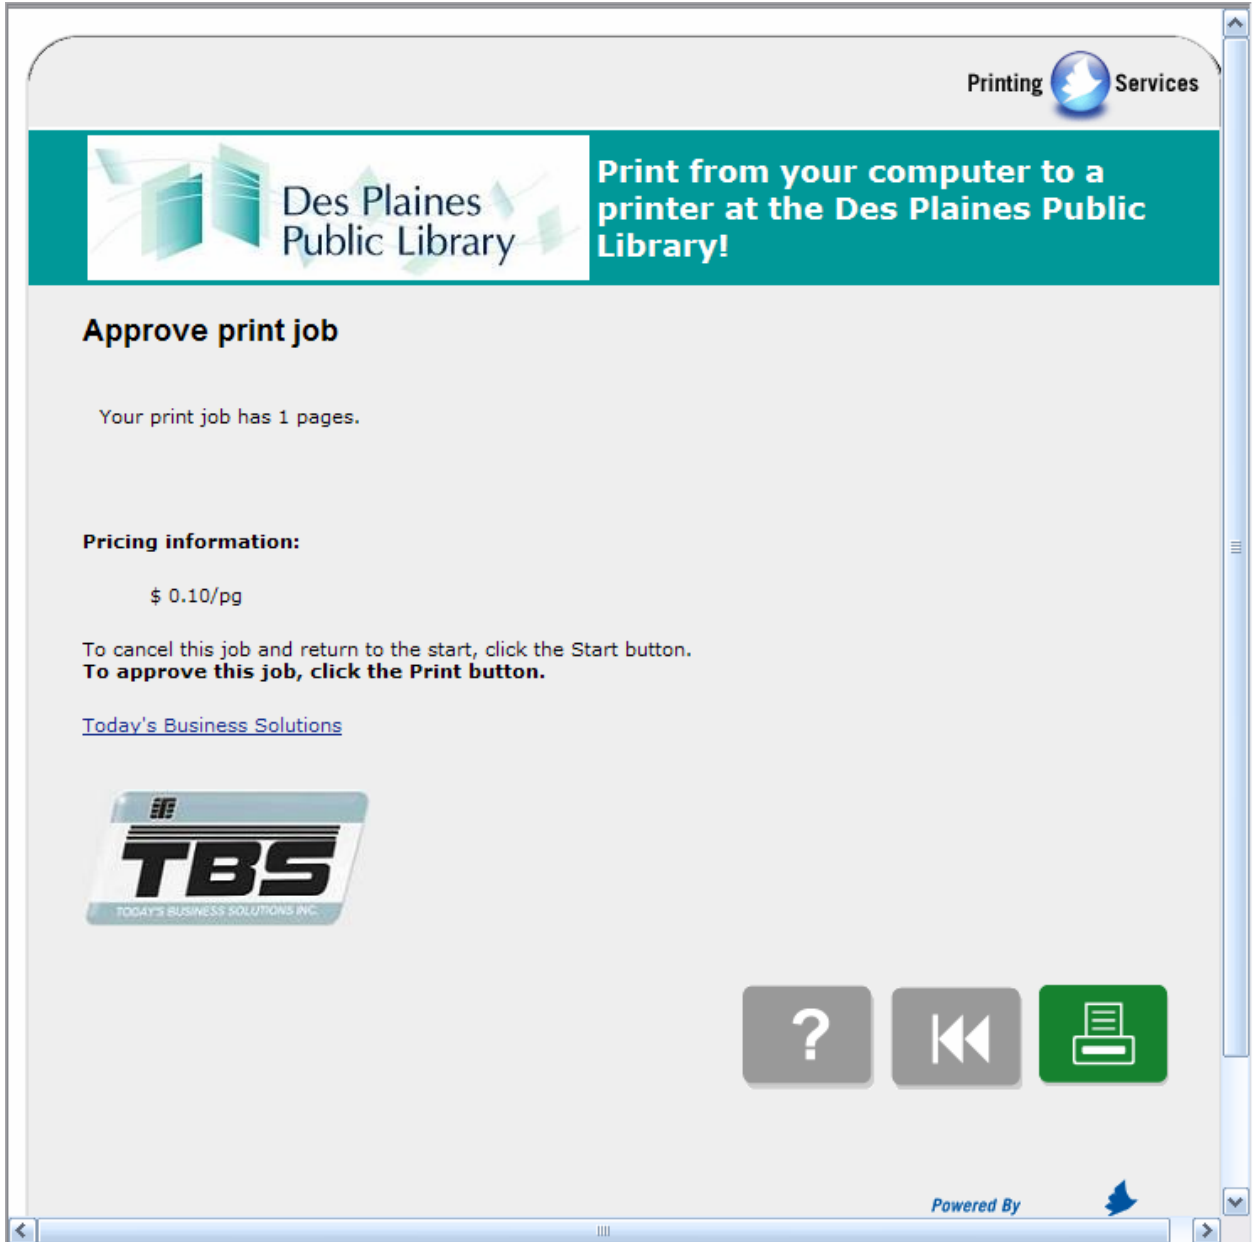

8. Your print job total will calculate.

9. Your total job cost amount will then display with a print button.

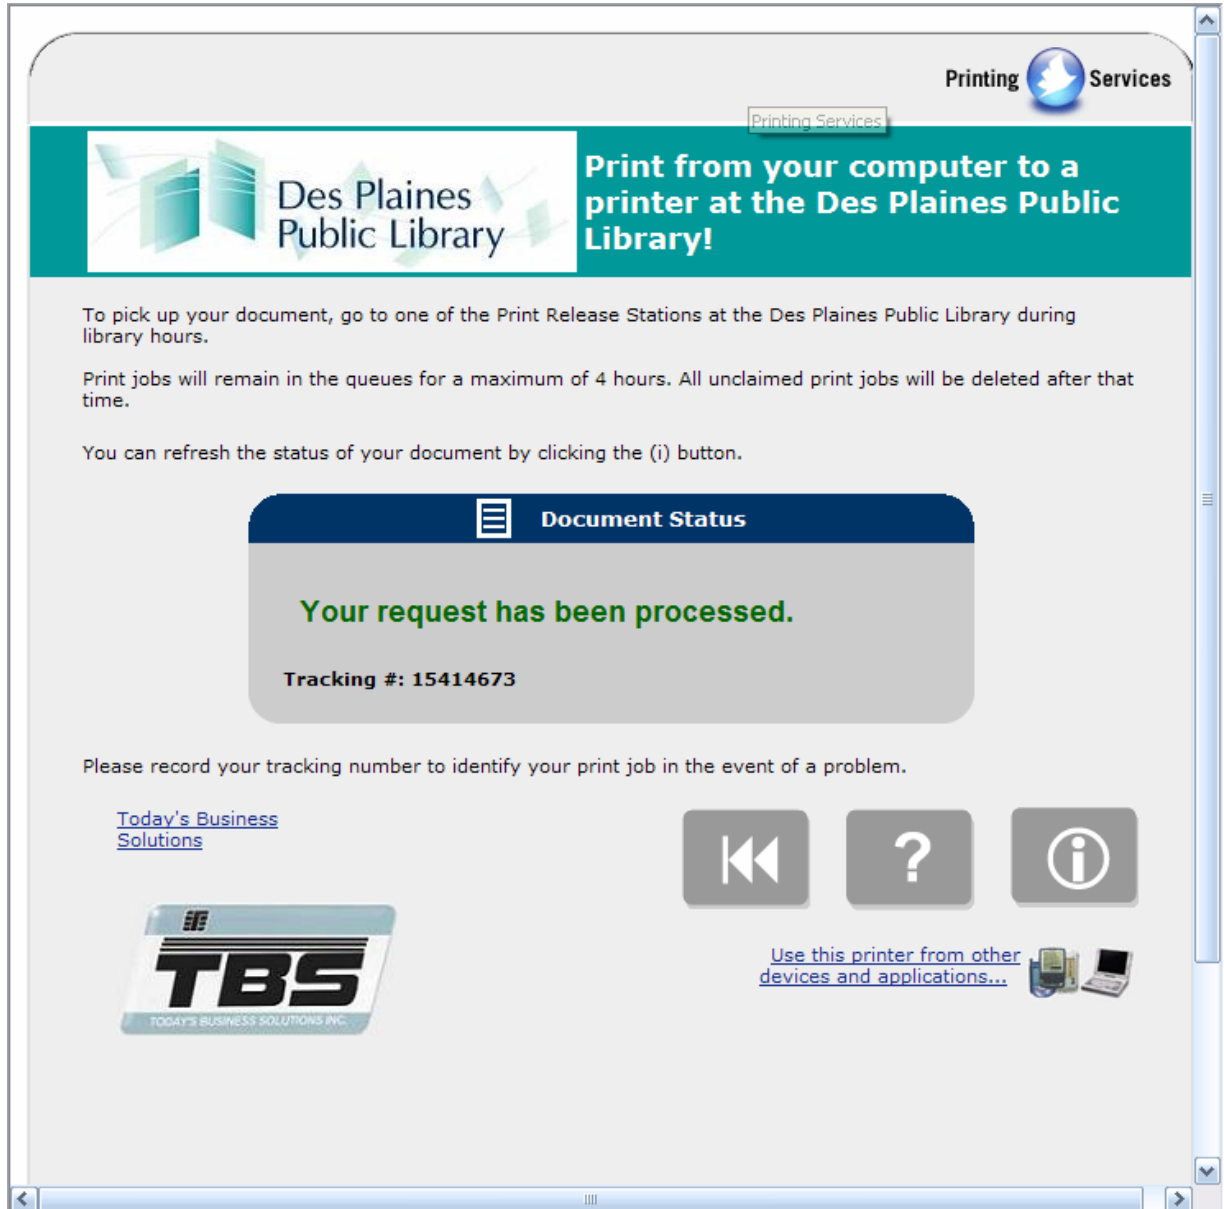

10. Press the green print button to send the job to the Des Plaines Public Library

11. Your document has now been sent to our printers successfully!

*Note: To print out your document, please go to the fourth floor printstations to pay and release your job. It will be stored under the username that you chose during the first step of this process. **It may take several seconds up to 2-3 minutes for the system to refresh and for the job to show.***

1. If you want to create another job. Press the doubleback arrow to start the process over again.
