

**The Des Plaines Public Library, Des Plaines, Illinois**  
**Proposals for removal of 7 self-checks and installation of 6 self-check units**  
**No. 01-2026**

ADDENDUM #2

1. *Ok, I am asking about things you guys might be interested in for your Self-checks. I included the Digital Poster so each terminal could be used for advertising library info or holidays but was wondering if you guys would want the QR code option? It allows those that do not want to touch the machine to scan the QR code and basically do the functions of the self checkouts on their phone. You can provide information on the self-check without the extra features and then add optional features separately in the RFP.*
