

## SCHEDULE AT A GLANCE

Schedules at SAA operate on a six-day rotating cycle. Classes do not correlate to a specific day of the week, but are instead assigned a specific numbered day in the rotation. Every six days, the class rotation begins again. The matrix below demonstrates the frequency that each class meets during a six-day rotating schedule. In addition to the classes noted below, all grade levels also have a minimum of 25 minutes of daily homeroom/advisory, during which time Social Emotional Learning, executive function support, and community building are integrated.

### KEY

- = Single class period, 52 minutes\*
- ⊙ = Double class period, 104 minutes

\*Jr. Kindergarten and Kindergarten periods vary slightly in length
